Secure, LAN networked CMS Solution Digital Signage for Busy People

Sedao Digital Signage is an innovative manufacturer delivering high quality, easy to use and cost-effective digital signage communications systems.

The SedaoLive Local CMS has been specifically developed for environments where organisational security guidelines restrict deployment of a CLOUD software solution.

With more memory, the same robust hardware and powerful yet simple to use platform capabilities, the SedaoLive Local CMS enables users to switch into local mode and operate within their secure business network.

Suitable for any industry sector wanting to retain organisational in-house server guidelines while gaining the flexibility of a CMS digital signage solution.

Corporate	Education	Healthcare	Hospitality	Retail
Branding	Visitor welcome	Patient information	Visitor information	Point of sale (POS)
Company Information	Timetables	NHS flyers	Wayfinders	Consumer Engagement
Corporate videos	Staff notices	Clinic news	Roombooking	Posters
Industry messages	School events	Local business adverts	Events	Upselling promotions
