Clevertouch Launces new Clevertouch Plus series.

Clevertouch, exclusively distributed by **Sahara PLC** has launched the all new Clevertouch Plus series. Available from May, and available in 55", 65" and 70" the Clevertouch plus also features a built in Android OS, integral 8GB memory and not to mention 6 point touch, anti-glare glass and optional blade PC.

Shaun Marklew, Sales and Marketing Director at Sahara says:

"The Clevertouch Plus is a next generation IFPD. With the integrated Android OS the need to plug in an external PC is now not a necessity. Pre-installed with our new Clevernote app for on screen annotation, it has never been easier to switch on and go."

Sahara Presentation Systems Plc is a trade only distributor and manufacturer of Audio Visual (AV) products including major brands as well as our own range of audio solutions, mounting products, and more traditional presentation products including rail systems, dry wipe boards and notice boards.
